

# How to buy Deneum Tokens (DNM) using MetaMask

MetaMask is more than just an Ether wallet, it is rather an Ethereum browser that allows you all the same functions, features and ease of access from regular Ethereum Wallets, and all without the need to download the blockchain or install any software. With MetaMask, you can just install it as a Google Chrome Extension, and you're good to purchase those tokens you've been wanting to buy.

## Prerequisites:

To follow this guide, you will need:

- 1 A Google Chrome web browser.
- 2 A certain amount of ether in the account that you control. Please notice, only ETH will be accepted for the Deneum Private Sale

## Important Security Reminders:

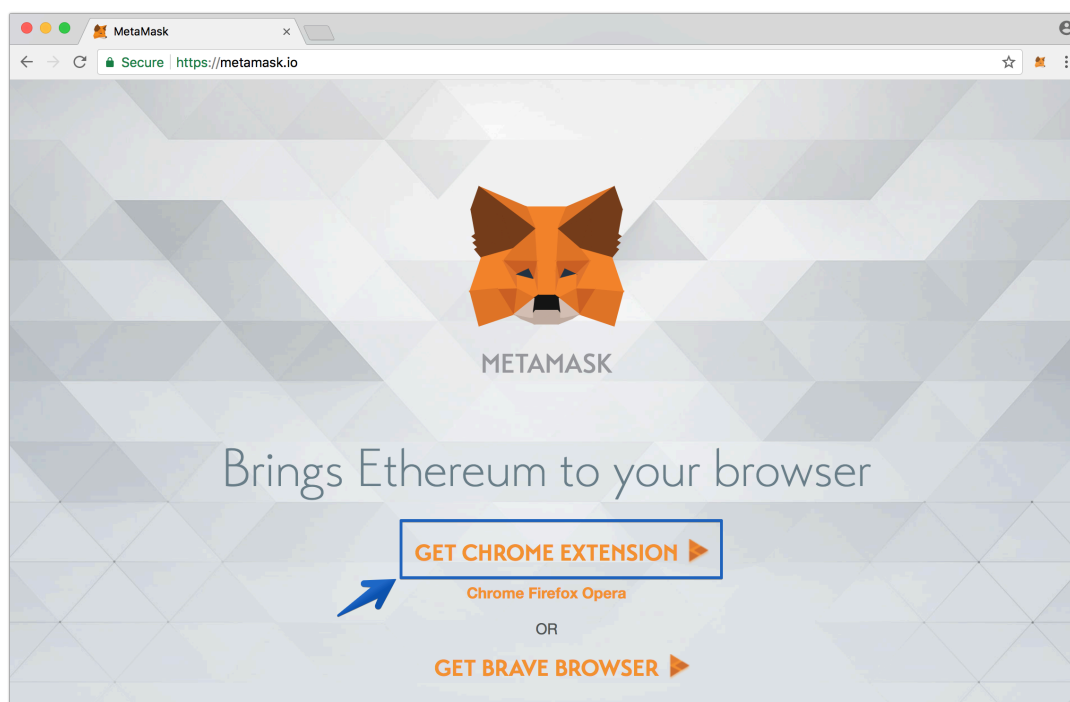

DO NOT send ETH directly from an exchange, otherwise your tokens might never be recovered. There is no need to increase default gas price (or the value you are used to). Unless there is an unusual traffic in the Ethereum network, 30 GWEI should be enough to get the transaction confirmed in a few minutes.

The information on this website is not intended for the residents of USA. Before continuing, you agree that this content is solely for informational purposes and does not constitute an offer to sell, or a solicitation of an offer to buy, any asset and/or security. You agree and warrant that you are not a resident of the USA and do not and shall not rely or use the information herein to make any decisions in respect of any investment.

If you don't have a ERC20-compatible address to send from, or ether (ETH) to contribute, start from **Step 1**. Otherwise, go to **Step 4**.

## STEP 1

Open Google Chrome (visit <https://www.google.com/chrome/> if you don't have one).  
Proceed to [www.metamask.io](https://www.metamask.io).  
Click "GET CHROME EXTENSION" and add the MetaMask Extension.

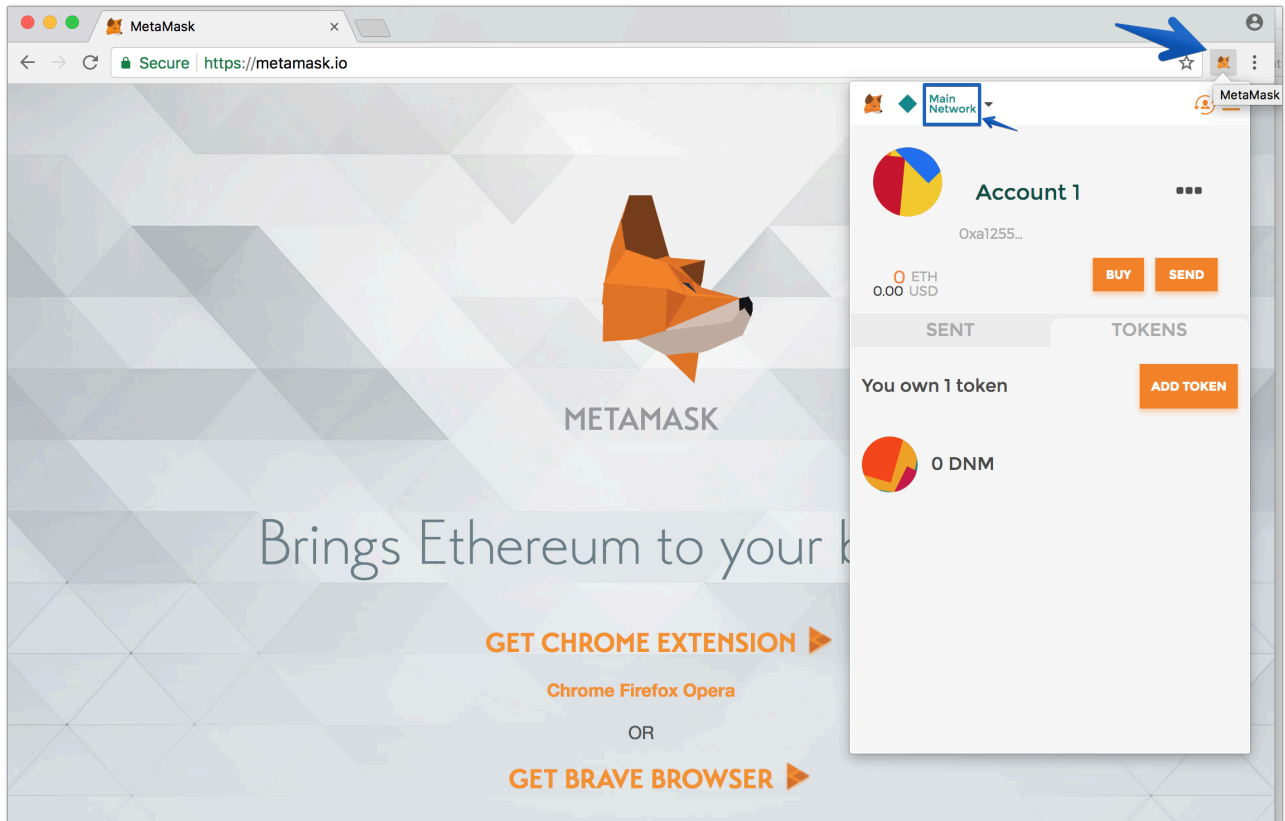

## STEP 2

Now you have the MetaMask icon at the top-right corner of Chrome. Click on it and create a password.

Make sure the "Main Network" is chosen.

*If you already have a private key or JSON file for a wallet, you can import that wallet in to MetaMask. Simply click "≡" at the top right and choose "Import Account".*

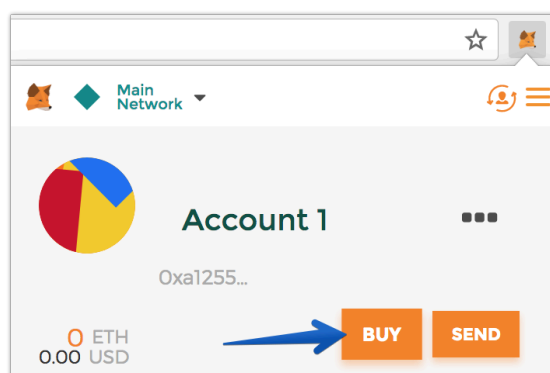

## STEP 3

To be able to participate in Deneum Token Sales you will need to have ether (ETH). You can buy ETH from various different crypto-exchanges or using MetaMask built-in buying methods.

Some of the external crypto-exchanges to purchase ETH:

<https://www.coinbase.com>, <https://www.bitpanda.com>, <https://cex.io>

Built-in MetaMask method:

## STEP 4

Ensure that you are on [deneum.com](https://deneum.com). Click “BUY TOKENS” or “JOIN” buttons on the website and copy the Crowd Sale Smart Contract address.

Period	Apr 2 – Apr 27	The round will end on April 27th, 2018 or once the Hard Cap is reached — whichever comes first.
Minimum	100 Tokens	The minimum purchasing amount is 100 Tokens, which totals at \$295 USD.

Make sure your wallet supports ERC20.

Deneum (DNM) Crowd Sale Address: [0x28ed4e3751e12dc10aae6c4e40be1a3dad989483](https://0x28ed4e3751e12dc10aae6c4e40be1a3dad989483) [Copy](#)

DNM Token Address (to show up in your wallet): 0x2896a4bbd70712bb3aad89eb65b5f6393768707c

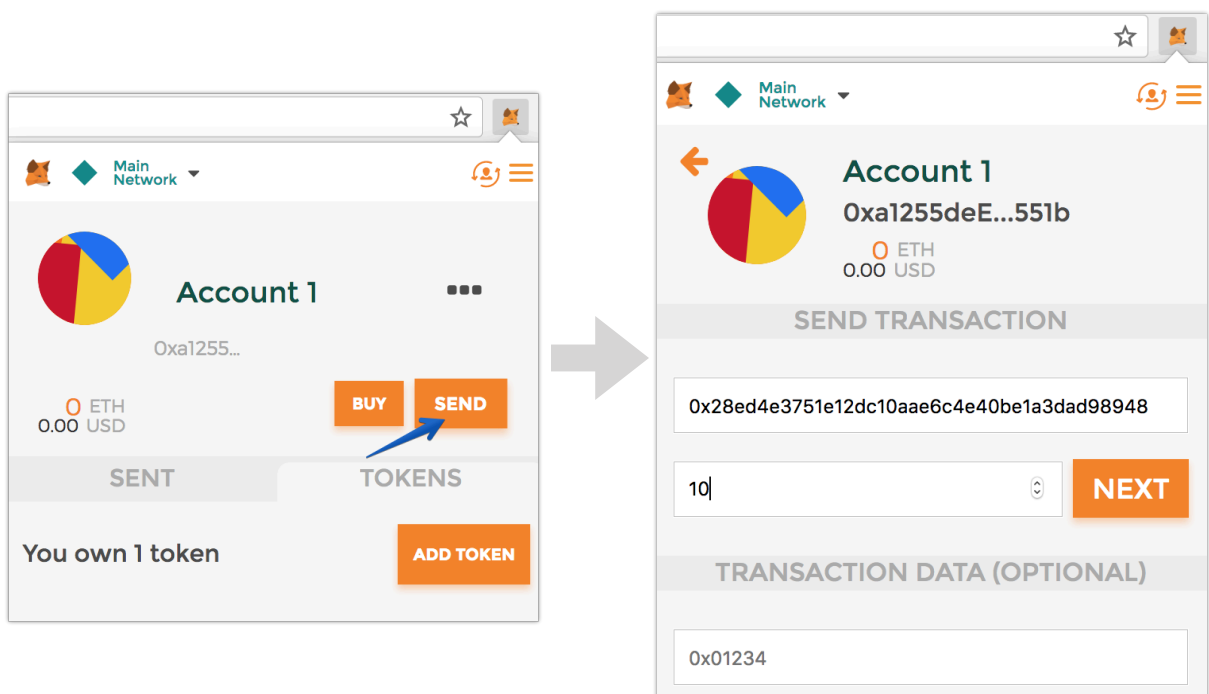

If you don't have an Ethereum wallet, please see the [guide](#).

By contributing you acknowledge that you read [White Paper](#) and [Risks](#).

## STEP 5

Open MetaMask extension. Click “Send” and insert the amount of ETH you want to contribute. The number should equal to \$295 USD or more based on the current ETH price.

You can see the current ETH price at [coinmarketcap.com](https://coinmarketcap.com).

## STEP 6

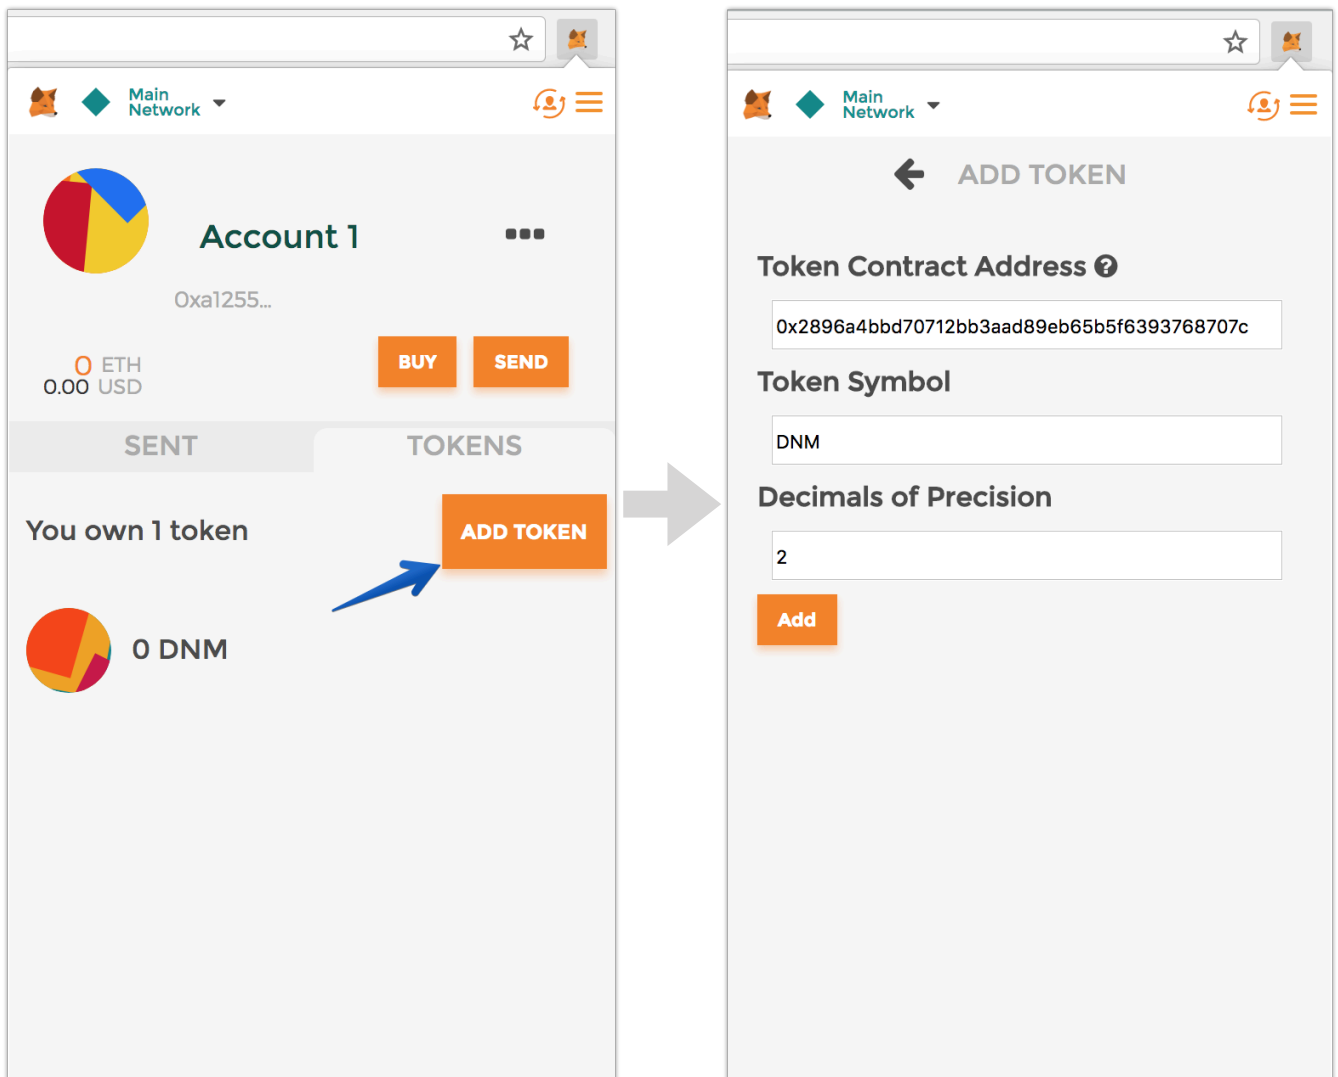

Add DNM Token to your MetaMask so you can see your Token balance.

Click "Add Token" and paste the following information:

Address: 0x2896a4bbd70712bb3aad89eb65b5f6393768707c

Token Symbol: DNM

Decimals of Precision: 2

That's it.

When your transaction has been mined and entered into the blockchain, you will be able to see it under "Tokens" in your MetaMask account. Normally it takes no more than 2 minutes.

Your support and participation in Deneum Token Sales is much appreciated!
